

Philosophy

Ecology

**Working title:** Human mission in ecological crisis  
in the light of Schopenhauer's philosophy of Will

**Research questions:**

- ★ Do humans by nature have a mission based on the philosophy of Will?
- ★ How can human knowledge contribute to find this mission and the ethical aspects to achieve it?
- ★ What is the human mission today in the ecological crisis?

**Method:** Systematic application of philosophical texts to contemporary questions related to ecological ethics

**Towards human mission:**

Arché (fundamental principle) – **Will (striving Will)**

↳ Ódos (way) - **Knowledge to deny striving Will**

↳ Télós (goal) – **Compassion (human mission)**
